Origin of ownership:

Kenya

Milk collection:

160,000
farmers

Geographical presence:

Botswana, Burundi, Djibouti, Democratic Republic Of Congo, Ethiopia, Egypt, Kenya, Mauritius, Malaysia, Rwanda, Somalia, Syria, Somaliland, Sudan, Seychelles, Tanzania and Uganda.

A JOURNEY OF GOODNESS

WELCOME TO BROOKSIDE DAIRY

Thank you for choosing to partner with Brookside Dairy Africa Ltd

I would like to take this opportunity to share a brief overview of our country, company, vision, our humble beginnings and an ongoing journey for over two decades.

Kenya is the largest economy in East Africa, with a gross domestic product (GDP) of 75 billion USD (2017). Agriculture is fundamental in economic development, as it contributes 35% of the GDP and constitutes 40% of the export earnings. The dairy sub sector contributes about 8% to the total GDP with an annual milk production of 3.43 billion liters.

Brookside was founded in 1993 to create a Shared Value approach to the Dairy industry in Kenya, establishing the first privately owned Dairy processor in the Country.

Twenty six years ago, we begun the journey by processing, packaging and marketing 5,000 liters daily of one brand of fresh milk. We have since grown to 6 various categories and six brands of high quality dairy products. In addition we have increased our processing capacity to 1,000,000 liters daily.

The quality assurance of our products begins at the farm-gates of Kenya's pristine raw milk sheds, through our state-of-the-art processing plant where we ensure that only the best dairy products make it to our customers. Through our vast distribution network, we serve a diverse profile of consumers across 22 countries within Africa and Asia.

Through constant market needs research, we have stood out with our product innovations that are premised on quality and tailored to meet the ever changing needs of our consumers.

We offer the largest array of dairy products in the region constituting fresh milk, long life and traditional cultured products, creams, fats and milk powder.

Our fidelity to quality has been the main driver of our business success, which enables us to satisfy the needs of our customers.

Our journey and vision continue to drive us to further develop a sustainable value chain in the dairy industry across our continent, whilst strengthening our position through quality exports for shared value.

The shared vision and purpose with our investment partners has delivered quantum growth of our global footprint in the dairy industry. This integral part of the journey begun through our affiliation with Danone, a leading global dairy processor that further raises our benchmarking standards. Together, we have created shared value for the communities and wider society.

I thank you for choosing to partner with Brookside to further assist us to contribute and participate towards overall Dairy Development and future of our beautiful African Continent, our Mission goes beyond value addition and Market recognition.

Asante Sana (Thank you Very Much),

Muhoho Kenyatta
Founder & Executive Chairman
Brookside Africa Ltd.

VISION

Brookside Africa Ltd is committed to being the market leader in East, Central and Sub-Saharan Africa and to be the benchmark company in the Dairy Industry in Africa.

MISSION

Brookside Africa Ltd operations are focused in the processing and safe packaging of milk and milk products.

Committed to lead the market in terms of quality of our products and excellence in customer service.

OUR COMMITMENT

Brookside Africa Ltd is committed to achieving high standards in every aspect of our business: in milk procurement, dairy products processing, storage and sales, thereby providing the customers with safe, quality and wholesome products while using efficient services to compliment the entire process.

We are committed to produce using the highest manufacturing, storage and handling practices that assure the highest level of hygiene and food safety standards consistently and sustainably.

FOOD SAFETY AND QUALITY POLICY

Brookside Africa Ltd in cognizance to its purpose, context and strategic direction, is committed to achieving high standards in every aspect of our value chain in procurement, processing, storage and distribution thereby providing our consumers with safe, quality and wholesome products focused on quality and efficient service.

ENVIRONMENTAL POLICY

Brookside Africa Ltd in consideration of it's context, is committed to reducing its environmental impacts throughout our processes of milk procurement, processing, storage and distribution.

HEALTH AND SAFETY POLICY

Brookside Africa Ltd is committed to ensuring provision of a safe and healthy workplace for all it's staff and other stakeholders within Brookside Dairy limited workplace.

WHY WE LEAD IN THE MARKET

- ▶ We have the widest Regional Dairy Distribution network supplying over 200 types, variants and sizes of various branded products
- ▶ Globally recognized systems in place: FSSC, FSMS, QMS, EMS, OHS, ILS
- ▶ 48 Tests from grass to glass
- ▶ 27 approval stages
- ▶ Superior Customer feedback system
- ▶ Corporate Governance compliance
- ▶ Excellence in our corporate social responsibility practices
- ▶ Halal Certified
- ▶ We are affiliated to Danone - a leading global Dairy Company

“Our Quality Management Systems ensure we are focused on providing you, our customer, with the assurance and confidence that meet your needs, expectations and requirements to build trust and loyalty.

Our commitment to food quality and safety ensures that the confidence and trust you place in us is fully met, today and everyday.”

Quality Assurance Team

QUALITY CERTIFICATIONS

BROOKSIDE AFRICA IS CERTIFIED ON INTERNATIONAL STANDARDS IN 4 KEY CATEGORIES

CERTIFICATIONS	SYSTEMS	CERTIFICATION REMARKS
▶ ISO-9001-2015	Quality Management System	The focus of this certification is on international efficiencies and ultimately to meet customer satisfaction/needs.
▶ ISO-22000-2018	Food Safety	This is a certification that confirms we have a tool or system that enables an organization to control or manage food hazards across the entire supply value chain.
▶ ISO- 14001-2015	Environment - EMS	This certification confirms our focus on environmental protection, sustainable development and social responsibility.
▶ ISO-45001-2018	Health & Safety- OHS	This certification confirms our key focus on providing a safe working environment across the entire supply value chain.
▶ FSSC-22000-2018	Food Safety	This certification confirms that we have aligned our system designed to provide companies in the food industry with an ISO-based food safety management system certification that is recognized by the Global Food Safety Initiative (GFSI)
